Guidelines for Player Movement / Try Out Release Between Greater Victoria Baseball Association Parks

These guidelines are intended to support and strengthen our members and the local park associations, by providing the continuity of the player and volunteer base within their own community so that they can continue to offer a viable program. Since the focus for the Spring Season is to create and sustain a strong and competitive house league, we need to ensure that there are mechanisms in place so that each park continues to have the player base to participate fully in our spring house league.

With some parks not offering the full range of divisions, two (2) catchment maps are used. 11U and under and 13U and over. New players to GVBA are to use the map for their age group to determine what park to register at. If a player lives in an area that changes catchment from the 11U to 13U map or if they move into another catchment, that player can remain with their original park for the remainder of their youth baseball career.

A. REQUESTING A MOVE

A player may request a move to ***an adjacent*** park for the following reasons:

- i. Attends school, day care, etc. within another park's catchment area.
 - ii. Special request of family – reasons may be varied, may be kept confidential by the originating park president.
1. To request a move to ***an adjacent*** park, the following must be done:
 - i. The family is required to make the request in writing to their local park president and include the following information:
 - a. Player Name
 - b. Player Division
 - c. Registration Address
 - d. Requested Park
 - e. Reason for the request
 - ii. The park president is to reply to the request with their decision and *include the president of the receiving park and GVBA registrar if a release is granted.*
 - iii. The receiving park can accept the released player *as long as they are not displacing a player from their own catchment.*
 2. Players who move to an adjacent park under this agreement, are to remain with the receiving park for the remainder of their youth baseball career to provide continuity for both parks involved and for the player and family.

B. MOVEMENT OF PLAYERS TO ACCOMMODATE TEAMS/NUMBERS/ETC.

1. Park associations are permitted to work with neighbouring park associations to make sure that all players can be accommodated to play. For example, two parks may not have enough players to create a team each but could create a team by combining their players. This is common during the fall season as there are fewer players and teams across the city.
2. Park associations may decide within their own park whether to move players on the last registered/first to move basis or to ask for volunteers.
3. Players who play in a different park from their catchment for this reason, area are to return to their home park the following season.

C. PROGRAM NOT OFFERED

1. When a program is not offered at the park in whose catchment area the player resides, the player may register at **an adjacent park**. When the player reaches the age of a program offered within their local park, they are expected to return to their park. However, they may apply to move under item A above.
 - i. In the case of 13U at Lions or Layritz not being offered. The player is to register at the other park. This will keep the continuity for this group as Lions players transition to Layritz for 15U.

D. AA Tryout Release

1. In the event a park does not offer a 13U AA or 15U AA program, a family may request a tryout release to **an adjacent park** to try out for their AA team. If they do not make the AA Team, they are to register at their home park.
2. To request a tryout release to **an adjacent** park, the following must be done:
 - i. The family is required to make the request in writing to their local park president, the requested park president, the requested park registrar and the GVBA registrar (gvbareg@gmail.com) and will include the following information:
 - a. Player Name
 - b. Player Division
 - c. Player Birthdate
 - d. Registration Address
 - e. Requested Park
 - f. Reason for the request
 - g. Statement that they understand that if the player does not make the AA team, they are to return to their home park.
3. As the home park is not offering a AA the program the tryout release will automatically be granted.
4. The player is to register at requested park so they can be properly insured.

5. It is up to the requested park if they collect payment at time of registration or at time of making the team. If the player registers and does not make the team a full refund is to be issued to the family so they can register at their home park.

E. APPEAL

1. If a player and their family are not happy with the decisions made by their local parks, they may appeal in writing to the Registrar and President of Greater Victoria Baseball Association.

F. PLAYERS OUTSIDE OF GVBA

1. Players living outside of GVBA (Malahat and north), a request must be made to BC Minor Baseball yearly. Families are to contact the GVBA Registrar for guidance (gvbareg@gmail.com).
